Remarks:

A report on the fingerprint examination is being submitted separately. The evidence will be returned to the Denver Office upon completion of this phase of the examination. Photographs are retained.

It is pointed out that some significant similarities were noted between comparable letters in case #13 and case #14. Case #14 was submitted by the Denver Office with a letter dated 3/19/60, Bureau file 9-37208. The note in case #14 is typed entirely in upper-case letters while the note in case #13 is typed mostly in lower-case letters.

MAR 29 1960 7 PM"
- Q2 Accompanying typewritten note on irregularly torn slip
of paper beginning "We are ready to do...," and ending
"...you will be sorry for."

Result of examination:

It was found that the typewriting on the envelope
and note, Q1 and Q2, was prepared on a typewriter equipped
with Remington pica type spaced ten letters per inch. There
are not enough of the same letters to permit a determination
as to whether or not Q1 and Q2 were prepared on the Remington
typewriter used to type the envelope and note in case #14
growing out of COORNAP. This typewriting was searched through
the Anonymous Letter File, but nothing of significance was
found. A photograph has been added.

The envelope, Q1, is made of white bond paper con-
taining no watermark and measuring 3.63" by 6.50". The paper
comprising the note, Q2, is a white bond stock irregularly
torn from a larger sheet. It measures 8.38" by roughly 2".
It contains the watermark "Jeffersonian Bond." This water-
mark is most likely the same as the watermark "Jeffersonian"
which is listed for the W. H. Mistler Stationery Company,
Denver, Colorado.

MAR 17 1960 5 30 PM"
Q2 Accompanying one-page typewritten letter beginning
"TO IT MAY CONCERN..." ending "...HER WE ARE SERIOUS"

Result of examination:

It was found that the typewriting on the envelope and letter, Q1, and Q2, was prepared on a typewriter equipped with Remington pica type spaced ten letters per inch. This typewriter was not used to type the original COORNAP envelope and ransom note, Q10 and Q11. Furthermore, this typewriter was not used to type other typewritten extortions letters growing out of COORNAP or the addresses on the envelopes addressed to [REDACTED] thus far received.

b6
b7c

The typewriting on Q1 and Q2 was searched through the Anonymous Letter File, but nothing of significance was found. A photograph has been added.

The envelope, Q1, is made of white bond paper containing no watermark and measuring 3.62 by 6.48 inches. The paper comprising the note, Q2, consists of white, unruled bond paper containing no watermark. It was torn from a larger sheet and measures 5.52 by 6.43 inches.
